PROFILE

Self-taught Frontend & Full-Stack Developer with hands-on experience building and launching SahelWork, a SaaS platform for freelancers. Proficient in Next.js 15, React, TypeScript, Tailwind CSS, and PostgreSQL. Experienced in implementing authentication, subscription billing, and responsive UI/UX design. Passionate about building efficient, user-friendly web applications.

WORK EXPERIENCE

SahelWork SaaS Platform
Full-Stack Developer
APRIL 2025 - AUG 2025

- Built and launched SahelWork, a full SaaS platform for freelancers to manage clients, quotes, proposals, contracts, invoices, and payments.
- Developed responsive frontend using Next.js 15, React, TypeScript, Tailwind CSS, and shadcn/ui; optimized for desktop and mobile users.
- Implemented secure authentication with Clerk, subscription payments with LemonSqueezy, and real-time notifications for SaaS workflows
- Designed scalable and implemented multi-tenant database schema with PostgreSQL (Drizzle ORM).
- Deployed and maintained the application on Vercel, following modern SaaS best practices.

Self-Employed
Freelance Web Developer / Web Designer
2025 - PRESENT

- Designed and delivered fast, SEO-friendly websites for local businesses using WordPress, focusing on performance, conversions, and mobile responsiveness.
- Built business websites, e-commerce stores, multilingual websites, and travel agency platforms tailored to client needs.
- Customized WordPress themes and plugins to deliver lightweight, secure, and scalable solutions.
- Used AI tools to speed up content creation, design iteration, and client delivery while maintaining quality.
- Helped businesses establish an online presence quickly and cost-effectively with production-ready websites.
